Barrett (Nissan)

Heavy-duty industrial truck
casters and custom solutions
for any challenge.

- Enhanced cornering stability and comfort with heavy-duty construction for increased work life.
- Convenient fine height adjustments – no shims required.
- Patented PolyBlock™ Technology (medium duty) – outperforms competitive metal spring casters.
- Heavy-duty adjustable technologies – Polyurethane Elastometric Spring and Top Adjustable designs for extreme applications.

STR Stabilizer Caster™ Models:

Features Across All Stabilizer Models:

- Cornering Stability & Comfort
- Patented PolyBlock™ damper technology reduces oscillation and rocking effect
- Rust-Proof Zinc Plating
- Greasable Wheel Axles
- String Guard comes standard
- Linear Deflection with a positive stop
- Interchangeable Kit Replacements
- Optional maintenance-free Sealed Wheel Bearings

STR1000 Series Caster™

For Walk-Behind Pallet Trucks carrying 4,000-5,000lb.

Defining Feature: Designed with a full-size swivel mechanism that uses a cup-and-cone with thrust bearing instead of a single-row ball bearing, ensuring high durability and longer wear life.

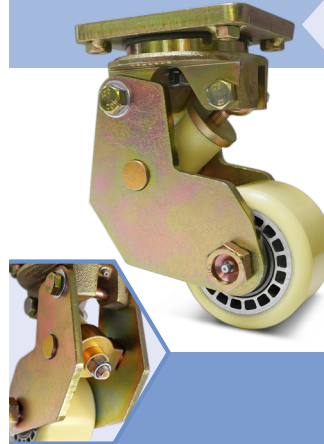

Available For: STR5213, STR5253, STR5263, STR5200B

Extreme Food Service

- Greasable Pilot Axle
- Larger Greasable Wheel Axle
- Available for STR1500 models

STR5200 Series Caster™

For 6,000lb. Rider Pallet Trucks

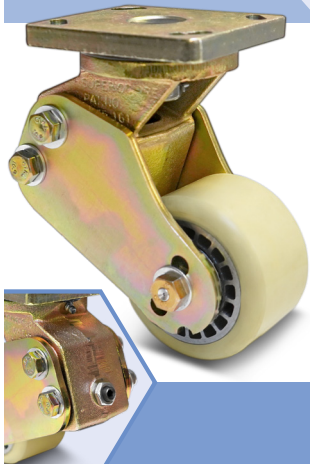

Defining Feature: Designed to be quickly and easily adjustable from the side of the truck, without ever having to lift the truck. Solid casting with no welds and heavy duty 5/16" side plates.

Available For: STR5213, STR5253, STR5263, STR5200B

STR2000 Series Caster™

For 6,000lb. Rider Pallet Trucks

Defining Feature: Engineered as a drop-in replacement for all OEMs offering its three-position height adjustment system, offering both coarse and extra-fine settings for maximum flexibility without the need for spacers or shims.

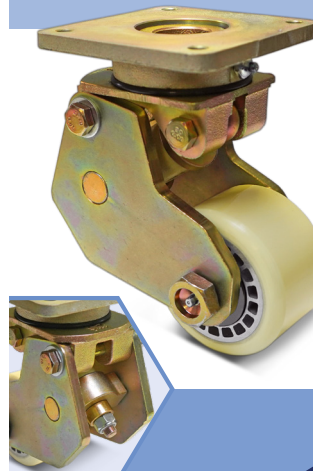

Available For: STR02000, STR02000BL, STR02000CR2, STR02000HY, STR02000JH, STR02000RA, and STR02000TY

Extreme Food Service

- Greasable Pilot Axle
- Larger Greasable Wheel Axle
- Available for STR2000HY, STR2000JH, and STR2000TY models

STR5400 Series Caster™

For 8,000lb. Rider Pallet Trucks

Defining Feature: Designed as a heavier duty quick and easy adjustable from the side of the truck caster. Kingpin-less heavy duty machined & hardened cast housing with no welds and heavy duty 3/8" side plates for added strength and longevity.

Available For: STR5453, STR5473
