

CUSHOTRAC® ReDDi™

The **ONLY Bolt-To-Link Track Pad**
Built for Versatility, Durability,
and Unmatched Performance

Unmatched Durability - Our proprietary polyurethane compound offers 2-3X longer work-life than traditional rubber pads.

Made in the USA - Premium quality with every pad, crafted to withstand heavy-duty work.

Industry-Leading Warranty | Unbeatable Confidence - CUSHOTRAC® ReDDi™ pads are the only track pads with a 2-Year or 2,000-Hour Wear-Life Guarantee*.

CUSHOTRAC[®] ReDDi[™]

MACHINES UP TO: 80,000LBS
PAD SIZES: 500-600MM

*Refer to terms & conditions at www.superiortire.com

CUSHOTRAC[®] ReDDi[™] polyurethane track pads last up to 3 times longer than rubber, resisting tearing, cutting, & moisture while reducing vibration and noise. With superior durability and surface protection, they deliver reliable performance at a comparable cost, custom-made in the USA.

Maximum Strength

Premium U.S. produced high strength steel core with optimized geometrical design to eliminate bending & breaking.

Superior Durability

Using our "Milling Grade" polyurethane instead of rubber provides 2-3x more wear-life and tear resistance.

Ultra-Fast Availability

Factory drilled to fit your machine's chain, typically ships within 72hrs.

The First Polyurethane Bolt-To-Link Excavator Track Pad Engineered Specifically for All Purpose & Heavy Duty Work.

Polyurethane VS. Rubber

	Poly	Rubber
Wear Resistance	////	///
Cut Resistance	////////	///
Tear Resistance	////	///
Grip Traction	///	////

Based on ASTM methods D-5963, D-624, D-1938, and D-1894.

Industry Leading Warranty

The ONLY Track Pad with a 2 Year or 2,000 Hr Wear-life Guarantee, whichever comes first. Registration is required.

“We tried the polyurethane CUSHOTRAC[®] ReDDi[™] pad side by side with the OEM rubber. The polyurethane pads had minimal wear after 1800+ hours and the rubber pads were peeling off the steel core. I've changed my entire fleet over.”

— Ron Johnson, Owner | Riverbend Equipment
