

CUSHOTRAC® ULTIMATE™

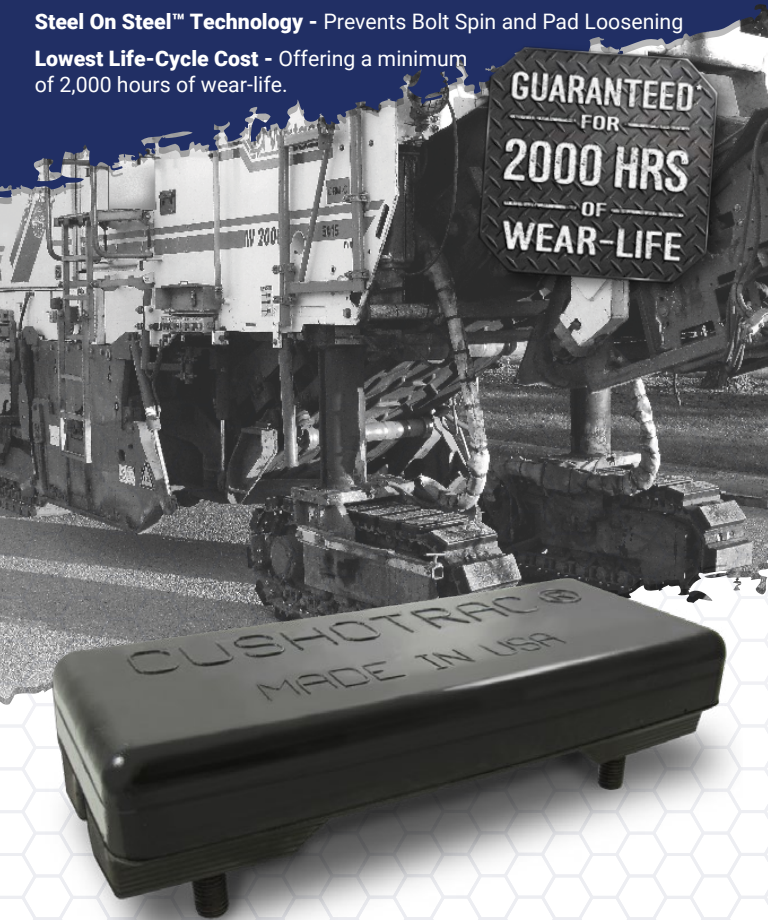

The Longest Lasting Track Pad for Asphalt/Concrete Milling Machines

Longest Wear-life - Guaranteed, from our proprietary polyurethane compound.

Maximum Traction - The largest possible footprint ensures excellent grip, even on wet surfaces.

Steel On Steel™ Technology - Prevents Bolt Spin and Pad Loosening

Lowest Life-Cycle Cost - Offering a minimum of 2,000 hours of wear-life.

CUSHOTRAC® ULTIMATE™

ONLY FOR ASPHALT/CONCRETE
MILLING MACHINES

*Refer to terms & conditions at www.superiortire.com

The CUSHOTRAC® ULTIMATE™ Track Pad is designed for asphalt and concrete milling machines. Made from a highly durable, abrasion-resistant polyurethane, they provide maximum traction, even on wet surfaces. With a guaranteed 2,000 hours of wear-life, they also provide the lowest cost per hour of any track pad in the industry.

Lowest Life-Cycle Cost

Proprietary polyurethane that provides the highest abrasion, cut, and tear resistance.

Enormous Footprint

Provides more traction in all milling conditions, putting your horsepower to the ground.

Steel On Steel™ (SOS) Technology

Most competitor track pads mold around the mounting bolts, preventing full tightening to the grouser shoe. Our Steel-On-Steel™ Technology eliminates loosening, premature pad failure, and "Bolt Spin," making removal as easy as installation.

When tightened, the steel core of the pad is in direct contact with the steel shoe.

Scan the code, answer a couple questions, receive quote!

*During business hours, excluding holidays.

Warranty

A true written warranty that guarantees a minimum of 2,000hrs of wear-life.

Availability

Fully cataloged for all makes and models of asphalt/concrete milling machines including (but not limited to):

- | | | |
|------------|----------|------------|
| 1. Wirtgen | 3. CAT | 5. Dynapac |
| 2. Roadtec | 4. BOMAG | 6. Volvo |
